RE: Waiver Request for Schools and Libraries Program (Erate)

To Whom It May Concern:

E Center respectfully requests consideration and approval for acceptance into the 2018-19 Erate Program year. We unexpectedly filed our 471 application forms later than the close of the FY2018 Filing Window. Unaware of the March 22, 2018 deadline, we were delayed in our response due to ongoing communications and contract execution with the selected Category 1 and Category 2 communications vendor TelePacific Communications.

Regrettably, in finalizing the appropriate funding amounts, the deadline for our 471 application was missed. I have attached for your review the email thread requesting communications along with the final documentation of the finalized bid for both Category 1 and Category 2 funding requests. Included in our Category 1 request is the AT&T Mobility quote for cellular voice communications and as such was also submitted past the deadline.

We ask that you consider our 10 year relationship as an Erate participant in allowing us to fulfill the FY2018 Application in its totality.

Should you require additional information regarding this request, we look forward to working with you to acquire the appropriate documentation to aid in your decision.

Respectfully,

A handwritten signature in blue ink that reads "Amanda Rhyne".

Amanda Rhyne

Operations Manager

Henry,

We are good for the afternoon of Wednesday March 14 or if you need to schedule it for Tuesday, we can make that work as well.

Would you and Scott be available to come up to our Yuba City Corporate Office?

Thank you,
Amanda

Henry,

Thank you for submitting the proposal for our 470 application. Our team met today to review your proposal and would like to proceed with TPx Communications for another 3 year contract (our current one end June 2018).

I will be submitting the information due on the 471 application shortly and will be in touch with any questions I have regarding the form's requirements.

In the meantime, how do you recommend we proceed with a new contract?

Thank you,
Amanda

Hi Everyone!

I am checking in on the status of your proposal for our recently posted 470 application. I haven't seen anything come through and would like to consider TelePacific Communications for our

accounts moving forward. Will you be forwarding a bid proposal?

Thank you,
Amanda

Subject: RE: E Center 486 Erate Forms

That is the correct 470 bid. This bid is for next program year 2018-19.

My question earlier is for the current program year and pertains to filing the 486 forms with Erate that identify you re the selected service provider for the 2017-18 program year and demonstrate how funds are to be handled. Can you verify the status for the 486 (SPI) form?

I know its confusing to do all of this at the same time. It's unfortunate as Erate typically draws out our applications approval process.

Thank you,
Amanda

I am coordinating with you regarding our Form 486 for Category 1 and Category 2 funding with Erate for the 2017-18 program year. I just wanted to check on the status of this and make sure the SPI form was filed out at this time. It is my understanding that you as the service provider files the SPI 474 forms. Is that correct?

Thank you,

Amanda Rhyne

Thank you Scott.

The sooner the better on those prices. I do need to finalize the erate process and believe we have to make sure the paperwork is done prior to the erate window closing.

Can I expect those numbers by Monday or Tuesday next week?

Thank you,
Amanda

Amanda,

Good afternoon and Happy Friday.

Per our meeting with David and Karen, we are looking at providing our new MPLS, SD WAN offerings at your remaining sites along with upgraded bandwidth from your existing 1.5meg locations.

This will take some more time and we should have the pricing to you sometime next week along with the renewal for the 471.

Thanks and have a great weekend!

Scott

Subject: TPx Upgrade Pricing

Hi Amanda,

Thank you for your patience. I've attached my spreadsheet with the following upgrades:

- Contract renewal-3 Year
- Colo upgraded to 500MEGS
- Firewall upgraded
- ITx WAN upgraded
- Bandwidth upgraded where available to 10MEG and 15MEGS
- Pricing is before CTF and Erate discounts

Let me know if there is anything else I can help with.

E-rate Proposal for E CENTER

To:
AMANDA RHYNE, CLIENT SOLUTIONS EXEC
E CENTER
1506 Starr Drive
YUBA CITY, CA 95993

From:
ERNESTO ESPINOZA, CLIENT SOLUTIONS EXEC 1
INTEGRATED MOB
AT&T
2700 WATT AVE, 4114-57
SACRAMENTO, CA 95821
Office: 9164863180, Wireless: 9168023051
Email: ernesto.espinoza@att.com

Introduction

In response to E CENTER's Form 470 bid #170055735, I'm providing information on an AT&T solution that may meet your requirements and qualify for E-rate funding. The solution includes the following components:

- Wireless services are a set of mobile solutions—devices, applications, and plans—that help you boost productivity, streamline operations, and improve responsiveness to your clients and colleagues. Wireless services enable organizations to be more mobile than ever—traveling to clients, working from remote locations, using mobile devices to communicate while on the go or to connect to corporate resources.

We recommend the NASPO ValuePoint program and contract as the right solution for your needs. AT&T's wireless contract with NASPO ValuePoint (formerly known as WSCA) provides aggressive contract-guaranteed discounts that have been pre-negotiated to save taxpayer dollars and streamline procurement.

We use this contract to provide wireless service and products because it enables us to offer rates, terms, and conditions that are far more robust than those we could offer through individual procurement efforts. You can find more information at the AT&T NASPO ValuePoint website: <http://www.wireless.att.com/businesscenter/legal-contracts/wsca.jsp>

Features and Benefits

The solution gives you the following:

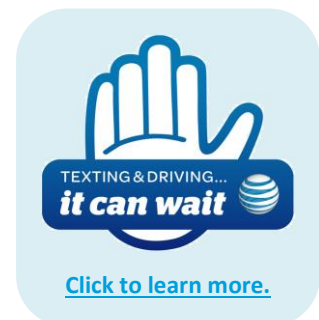

- Premier Online Portal—enables you to purchase, activate, monitor, and manage your company's wireless voice and data service via a web browser. AT&T Premier Enterprise Portal gives you 24x7 access to your wireless account, so you can more productively and efficiently manage your services.
- Our High-Speed Mobile Internet Network—covers more than 400 million people and businesses across the U.S. and Mexico. We also wirelessly connect cars, machines, shipping containers and more. We're committed to providing fast, reliable, highly secure connectivity to the Internet almost anywhere, any time, and from almost any device.
- AT&T BusinessDirect®—is an online portal that provides tools to let you manage your AT&T account and your contracted services 24x7. The tools automate many tasks by enabling your internal systems to interact directly with ours. As a result, you can save time by conveniently and securely managing your AT&T services anytime and minimize the need to make phone calls and wait for return calls.
- Retail AT&T Stores—include thousands of company-owned retail stores and kiosks, so we're probably close by. In addition, our state-of-the-art experience stores give you a new way to test-drive and shop for a wide range of AT&T communications and entertainment services. The "experience stations" in these stores let you try out cutting-edge wireless, wired, and converged services via hands-on demonstrations. Plus, we have hundreds of bilingual concept stores in key markets.
- Our devices—include more smartphone choices than any other U.S. carrier and a wide selection of tablets, netbooks, e-readers, and Network-Ready Devices using Android™, Apple® iOS, BlackBerry®, and Windows Phone. Additionally, LaptopConnect can wirelessly connect your laptop to the Internet at broadband speeds. For more information on the devices we offer, visit www.wireless.att.com/businesscenter/phones-devices/

Advantages of AT&T

Working with AT&T gives you the following advantages:

- **E-rate Experience**—AT&T has participated in the E-rate program for schools and libraries since the program's inception in 1998, and we're one of the program's largest service providers. We're proud to bring our technology, expertise, E-rate knowledge, and education experience to your school or library, helping expand affordable access to advanced telecommunication services. For more information about AT&T and its participation in the E-rate program, go to www.att.com/erate and download the E-rate brochure.
- **Service and Support**—We offer you easy access to assistance, whether through online tools or by phone. You also get support and guidance from highly trained staff with years of networking experience. Our account teams, who work closely with you, are dedicated to the education industry and are well versed in the issues and challenges that today's educators face.
- **Performance**—You expect communication services that work, and we can deliver. We've made substantial investments each year to improve our technology infrastructure so that we can provide superior performance.
- **Complete Solutions**—AT&T offers a wide range of solutions. We can work with a variety of products and technologies and can assess your needs to recommend potential solutions.
- **Community Focus**—At AT&T, we're proud of our strong record of corporate citizenship. Annually, we contribute millions of dollars through corporate, foundation, and employee giving to support education and community programs.

Expert Support

We support you through our world-class customer-care operation that's conveniently accessible to you via

- **Personal Relationships**
 - Account management—sales, care, and support teams trained to work with organizations like yours
 - Stewardship—a process in which we periodically review your wireless accounts and recommend strategies to maximize your benefits
- **Technical Specialists**
 - Technical Support—available 24x7 to help you with your wireless voice and data services
 - Mobility application consultants—specialists who evaluate mobility applications
- **AT&T Premier Enterprise Portal**
 - Customizable, self-service site—available on the web 24x7 with secure access: <https://www.wireless.att.com/business/>
 - Online account management tools—make billing, reporting, and ordering fast and easy
 - Customer support—includes Click-to-Chat, help topics and tutorials, and phone

Solution Pricing

Cost Allocation of Services and Equipment

Program rules require that any data plans, voice mail, custom-calling features, and equipment (voice/smartphones) that are part of a rate plan are excluded from the allowable portion of an E-rate application. While it is the customer's responsibility to follow and apply these eligibility restrictions and cost allocation requirements of the E-rate program, AT&T provides the following information as to applicable percentages to use in these calculations. For additional information, you can reference

- The USAC/SLD website: <http://www.usac.org/sl/>
- Cost Allocation Guidelines for Services:
<http://www.usac.org/sl/applicants/beforeyoubegin/eligible-services/cost-allocations.aspx>

Equipment availability and pricing is subject to change based on when plans are activated.

Two key steps are necessary to follow E-rate program rules on service eligibility and cost allocation of mobility services.

Step 1—Service Cost Allocation

USAC/SLD rules may require bundled mobility voice and data service plans to cost allocate the data portion and any other ineligible services that are part of an E-rate application. AT&T provides applicants the following estimated allocation factors when allocation is required. The following are estimates, but may vary for each customer based on the particular situation, including applications, custom calling features, eligible users, and eligible locations.

Mobility—Voice and Bundled Voice/Data Plans	Eligible %
Mobility—Voice Only Plans (Govt./Business Nation/National Flat Rate)	89
Govt. Pooled Voice/Unlimited Data-SMS Bundle AAL	24
Govt. Pooled Voice/Unlimited Data-SMS Bundle 300	41
Govt. Pooled Voice/Unlimited Data-SMS Bundle 400	42
Govt. Pooled Voice/Unlimited Data-SMS Bundle 600	51
Govt. Pooled Voice/Unlimited Data-SMS Bundle 1000	57
Govt. Pooled Voice/Unlimited Data-SMS Bundle AAL 4GB Tethering	24
Govt. Pooled Voice/Unlimited Data-SMS Bundle 300 4GB Tethering	35
Govt. Pooled Voice/Unlimited Data-SMS Bundle 400 4GB Tethering	35
Govt. Pooled Voice/Unlimited Data-SMS Bundle 600 4GB Tethering	44
Govt. Pooled Voice/Unlimited Data-SMS Bundle 1000 4GB Tethering	51
Business Nation Voice Plans	89
Business Nation Flat Rate	89
Mobile Share Advantage: Device/Access Charge (note: any handsets, voice, and/or data devices and/or data plan packages with these plans are not eligible)	89
1GB Mobile Select	52
3GB Mobile Select	45
5GB Mobile Select	39
7GB Mobile Select	35
10GB Mobile Select	30
Feature Phone—Mobile Select	73
Other Mobility Voice/Data Bundled Plans (bundles not specifically covered above)	49
Push to Talk (PTT) and PTT Enhanced (EPTT) Service (PTT is eligible as a core plan but not eligible when added to an existing service plan)	89

Step 2—Device Cost Allocation

Program Rules require that any voice/smartphones or data devices that are part of a rate plan are excluded from the allowable portion of an E-rate application.

For the following AT&T services, the customer may use the following monthly value as a proxy for the value of a subsidized smartphone device:

Mobility—Voice and Bundled Voice/Data Plans	Monthly Value of Device
Mobile Share Advantage Device/Access Charge - \$35.00	\$20.00
Mobile Select Integrated Plans	\$20.00

*Please note that the responsibility for verifying and certifying the information on the E-rate application is with the applicant prior to submission. This guidance notwithstanding, the final

E-rate Proposal for E CENTER

determination of eligibility will be made by the SLD after a review of the applicant's E-rate application. AT&T isn't responsible for the outcome of the SLD's decision on these matters.

Pricing for Wireless services is based on the following term: co-terminus with existing state contract

Note: MRC = monthly recurring charge and NRC = non-recurring charge
Monthly Recurring Rate Plan Pricing

Wireless services	143025240

Important Information

Proposal Validity Period—The information and pricing contained in this proposal is valid for a period of 90 days from the date written on the proposal cover page or until the E-rate filing window closes for the upcoming E-rate Funding year, whichever occurs later, unless rescinded or extended in writing by AT&T. **Proposal Pricing**—Pricing proposed herein is based upon the specific product/service mix and locations outlined in this proposal, and is subject to AT&T's proposed terms and conditions for those products and services and the AT&T E-rate Rider unless otherwise stated herein. Any changes or variations in the proposed terms and conditions, the products/services, length of term, locations, and/or design described herein may result in different pricing. Prices quoted do not include applicable taxes, surcharges, or fees. In accordance with the tariffs or other applicable service agreement terms, Customer is responsible for payment of such charges. **Copyright Notice and Statement of Confidentiality**—©2018 AT&T Intellectual Property. All rights reserved. AT&T, the Globe logo and other marks are trademarks and service marks of AT&T Intellectual Property. All other marks are the property of their respective owners. The information contained herein is not an offer, commitment, representation, or warranty by AT&T and is subject to change. The contents of this document are proprietary and confidential and may not be copied, disclose or used, in whole or in part, without the express written permission of AT&T, except to the extent required by law and insofar as is reasonably necessary in order to review and evaluate the information contained herein. **Disclaimer**—For purposes of this Proposal, the identification of certain services as "eligible" or "non-eligible" for Universal Service ("E-rate") funding is not dispositive, nor does it suggest that this or any other services in this Proposal will be deemed eligible for such funding. Any conclusions regarding the eligibility of services for E-rate funding must be based on several factors, many of which have yet to be determined relative to the proposed services and equipment described herein. Such factors will include, without limitation, the ultimate design configuration of the network, the specific products and services provisioned to operate the network, and the type of customer, and whether the services are used for eligible educational purposes at eligible locations. In its proposal, AT&T will take guidance from the "Eligible Services List" and the specific sections on product and service eligibility on the Schools and Libraries Division ("SLD") of the Universal Service Administrative Company ("USAC") website www.usac.org/sl. This site provides a current listing of eligible products and services, as well as conditionally eligible and ineligible services. This guidance notwithstanding, the final determination of eligibility will be made by the SLD after a review of the customer's E-rate application for this proposal. If AT&T is awarded the bid for this project, AT&T will provide assistance on the E-rate application solely on matters relative to the functionality of the services and products which comprise the network. Nevertheless, the responsibility for the E-rate application is with the customer. AT&T is not responsible for the outcome of the SLD's decision on these matters. **Broadband Internet Access**—For information about AT&T's broadband Internet access services, please visit www.att.com/broadbandinfo. **End User Equipment**—Beginning with funding year 2015, E-rate recipients must cost allocate non-ancillary ineligible components that are bundled with eligible products or services, including those end user device components that previously would have fallen within the scope of components not requiring cost allocation as described in the 2010 Clarification Order. Cost allocations are the responsibility of E-rate Applicants. For additional information, reference USAC/SLD website @ <http://www.usac.org/sl> and Cost Allocation Guidelines for Services @ <http://www.usac.org/sl/applicants/beforeyoubegin/eligible-services/cost-allocations.aspx>. Equipment availability and pricing is subject to change based on when plans are activated.
